HUMAN STUDIO SYNTHESYS BENEFITS

Human Synthesys Studio is rated highly among comparable products on the market and this is due to a number of obvious benefits. Here are some:

Up to 10 “Humatars”

Human Synthesys Studio gives you access to 10 commercial or 5 personal Humatars (presenters) upon purchase. In addition to that, the creators are always adding more presenters so you can expect more in the future.

Multipurpose

With Human Synthesys Studio, you can create a plethora of videos. For example, you could convert a PowerPoint presentation from mere visual slides into an interesting audio-visual. Instagram stories and sales videos could also be created with this revolutionary software.

Easy to Use

Using this software isn't complex at all. All you need to do is pick your favorite Humatar, write a script, and the software takes care of the rest.

40+ Languages

Human Synthesys Studio isn't limited in any sense, and that includes language. The software supports all the major languages of Google and Microsoft. So whether it is Afrikaans, Arabic, Bengali, Dutch, Japanese, Russian, Italian, etc., you are good to go!

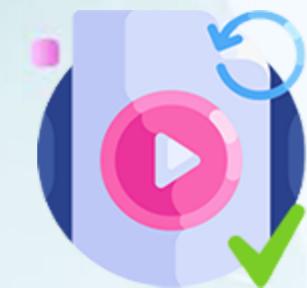

HUMAN STUDIO SYNTHESYS FEATURES

Human Studio Synthesys has quite a number of top features and below are some of the used and valued by those that use it frequently.

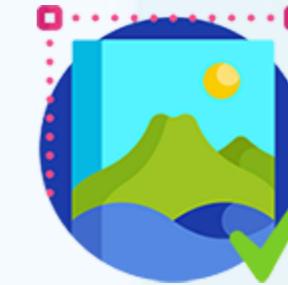

Talking Head Video

Human Studio Synthesys's platform has over 20 high-quality avatars that you can use for your speakers in your videos. You can either go for a round avatar or a full-profile avatar.

Cloud Based

Human Synthesys Studio is 100% cloud-based. Not just that, it also works on all major operating systems. As long as you have a steady internet connection, then you are good.

Custom Background

Tired of using bland and generic backgrounds for your videos? Human Studio Synthesys allows you to upload images or videos of your own as background to your videos.

Zero Delays

While using Human Studio Synthesys, you do not have to go through the frustration of waiting for your video to load till you have an idea of what the result will sound like. You can listen to the results in real time.

UNIQUE FEATURES

Human Studio Synthesys has features that aren't so common to comparable software. These features are far from few, and this list explains some of them.

MP4 Downloads

After your script has been converted into a video with the help of their Humatars, you can download the resulting video in HD format. This is entirely free and requires no extra charges.

Spokesperson Positioning

To attain a desired look or add a personal touch, you could move the Humatars around on your video and position it wherever you want.

Commercial Rights

This feature comes with a particular purchase option. I'd certainly recommend it because, with the commercial rights, you can earn more by offering a voice call service for all the videos they request.
